DETAILED ACTION

Allowable Subject Matter

Claims 2-6, 8, 10-13, and 62 are allowed.

The following is an examiner's statement of reasons for allowance: Palmaz does not disclose a friction increasing coating applied over both protrusions and indentations. Although Palmaz discloses applying a generic coating, the suggestion is that this coating applied would *decrease* the coefficient of friction of the inner surface, as the example Palmaz cites is an electropolish [column 6 lines 53-57]. Nowhere does Palmaz teach that his coating should be a friction *increasing* compound. Further, Palmaz explicitly limits the application of such a compound to only inner surface 301 of his stent, "which has not been provided with a groove, or grooves" [column 6 lines 49-51]. That is, Palmaz teaches away from applying a coating to a surface having *both* protrusions and indentations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradford C. Pantuck whose telephone number is (571) 272-4701. The examiner can normally be reached on M-F 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anh Tuan Nguyen can be reached on (571) 272-4963. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
